

Azo Dyes Policy

Policy Number: PRD/P/04
Date of Issue: July 2020
Revision Number: V2.0

Kathmandu manufacturers and suppliers are responsible for ensuring that all fabric, materials and finishes used in Kathmandu product meet the standards for restricted and banned chemicals, as detailed in the Kathmandu Restricted Substances List (RSL), including azo dyes. All Suppliers must comply with Regulation (EC) No 1907/2006, of the European Parliament and the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and should ensure that the concentration of SVHCs listed in the newest ECHA candidate list is below 0.1% in all articles supplied to Kathmandu.

Manufacturers and Suppliers should make themselves aware of these requirements on a regular basis, and ensure that the raw materials they purchase do not have banned chemicals present, and do not exceed acceptable limits of restricted chemicals.
